INDEPENDENT AUDITOR'S REPORT

Board of Trustees
River Delta Unified School District
Rio Vista, California

Report on the Financial Statements

We have audited the accompanying financial statements of River Delta Unified School District (the "District") Measure K General Obligation Bonds activity included in the Building Fund of the District ("Measure K Bonds"), as of and for the year ended June 30, 2021, and the related notes to the financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of River Delta Unified School District's Measure K General Obligation Bonds activity as of June 30, 2021, and the changes in financial position thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present the financial activity and balances of the Measure K General Obligation Bonds only, and do not purport to, and do not, present fairly the financial position of River Delta Unified School District as of June 30, 2021, the changes in its financial position, or, where applicable, its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 4, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the Measure K General Obligation Bonds Activity. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance for the Measure K General Obligation Bonds Activity. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance for the Measure K General Obligation Bonds Activity.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of River Delta Unified School District (the "District") conform to accounting principles generally accepted in the United States of America as applicable to governments and to general practices within California school districts. The District accounts for its financial transactions in accordance with policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant accounting policies:

Financial Reporting Entity: The financial statements include the activity and balances of the Measure K General Obligation Bonds, only. These financial statements are not intended to present the financial position and results of operations of River Delta Unified School District as a whole.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

The basic financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all government funds. By State law, the District's Board of Education must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's Board of Education satisfied these requirements.

The District's Board of Education and Superintendent revise the budgets during the year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Cash and Cash Equivalents: For the purposes of the financial statements, cash equivalents are defined as financial instruments with an original maturity of three months or less. Funds invested in the Sacramento County Treasury are considered cash equivalents.

Receivables: Receivables are made up principally of amounts due from local and state agencies for shared project reimbursements and funding. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2021.

Accounting Estimates: The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

RIVER DELTA UNIFIED SCHOOL DISTRICT
MEASURE K GENERAL OBLIGATION BONDS
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments at June 30, 2021 consisted of \$6 held in the County Treasury investment pool, and \$4,801,181 held as Cash with Fiscal Agent.

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Sacramento County Treasury. The County pools and invests the cash. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). Interest earned is deposited annually into participating funds. Any investment losses are proportionately shared by all funds in the pool.

Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments or related custodial credit risk classifications is required.

In accordance with applicable state laws, the Sacramento County Treasurer may invest in derivative securities with the State of California. However, at June 30, 2021, the Sacramento County Treasurer has represented that the Pooled Investment Fund contained no derivatives or other investments with similar risk profiles.

Cash with Fiscal Agent: Cash with Fiscal Agent represents cash balances held by various financial institutions. The cash balances are fully collateralized at June 30, 2021, and will be used to fund capital improvements in the District.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Interest Rate Risk: The District does not have a formal investment policy that limits the cash and investment maturities as a means of managing their exposure to fair value arising from increasing interest rates. At June 30, 2021, the District had no significant interest rate risk related to investments held.

Concentration of Credit Risk: The District does not place limits on the amount they may invest in any one issuer. At June 30, 2021, the District had no concentration of credit risk.

NOTE 3 – FUND BALANCE CLASSIFICATION

Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications are nonspendable, restricted, committed, assigned and unassigned. The fund balance of the Measure K General Obligation Bonds is restricted for the purposes as authorized through the approval of Measure K.

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

NOTE 4 – PURPOSE OF BOND ISSUANCE

Bond Authorization: By approval of the proposition for Measure K by at least 55% of the registered voters voting on the proposition at an election held on November 3, 2020, River Delta Unified School District School Facilities Improvement District #2 (SFID #2) was authorized to issue and sell bonds of up to \$14,600,000 in aggregate principal amount.

Purpose of Bonds: The proceeds of the Bonds may be used:

“To upgrade schools, retain/attract quality teachers by repairing leaky roofs; removing asbestos/mold; keeping schools safe; updating technology, fire/drinking water safety; repairing, constructing, equipping/acquiring educational facilities to prepare students for college/jobs/careers, shall River Delta Unified School District issue \$14,600,000 in bonds at legal rates levying an estimated 6 cents/\$100 of assessed value, averaging \$845,000 raised annually while bonds are outstanding, requiring audits, citizens' oversight/all funds used locally, be adopted?”

As required by the California Constitution, the proceeds from the sale of bonds will be used only for the construction, reconstruction, rehabilitation or replacement of school facilities, including the furnishing and equipping of school facilities and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

Bond Project List: The Bond Project List, which is an integral part of the proposition, lists the specific projects the District proposes to finance with proceeds of the bonds. Listed repairs, rehabilitation projects and upgrades will be completed as needed at individual campuses. Each project is assumed to include its share of costs of the election and bond issuance, architectural, engineering and similar planning costs, construction management and customary contingency for unforeseen design and construction costs. The final cost of each project will be determined as plans are finalized, construction bids are awarded and projects are completed.

NOTE 4 – GENERAL OBLIGATION BOND ISSUANCES

The bonds are general obligations of the District, and Sacramento County is obligated to levy ad valorem taxes for the payment of and interest on, the principal of the bonds. The Bond Interest Redemption Fund is maintained by the County Treasurer and is used to account for both the accumulation of resources from ad valorem tax levies and the payment of interest and redemption of principal of the bonds issued by the District.

On April 13, 2021, the District issued Series 20201 General Obligation Bonds in the amount of \$4,900,000 related to School Facilities Improvement District (SFID) No. 2. The bonds were issued to finance capital improvement projects within the District, bear interest at rates ranging from 2.125% to 5.0% and mature through August 1, 2050.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Education
River Delta Unified School District
Rio Vista, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of River Delta Unified School District (the "District") Measure K General Obligation Bonds (the "Bonds") activity included in the Building Fund of the District as of and for the year ended June 30, 2021, and the related notes to the financial statements and have issued our report thereon dated March 4, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over Measure K General Obligation Bonds activity financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion of the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's Measure K General Obligation Bonds activity included in the Building Fund of the District's financial statements are free from material misstatement, we performed tests of the District's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
